Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English. Brand new Book. This manual serves as a planning and operations guide for all personnel involved in mortuary affairs (MA) within a theater of operations (TO). These personnel must ensure the MA mission is completed with available personnel and equipment. They must also know the types of problems they may face in performing the MA mission. This manual will assist in determining operational capabilities and limitations and help guide the allocation of resources to successfully complete the mission. This manual outlines existing doctrine and relates policy, procedures, and standards. This publication applies to the Active Army (AA), Army National Guard (ARNG)/Army National Guard of the United States, and United States Army Reserve (USAR) unless otherwise stated. It is designed for use as a guide to operations and procedures by commanders, supervisors, and planners. The use of Automated Information Systems (AIS) that are used to execute business functions is common throughout the sustainment mission area. The specific automation requirements and functional software applications that will support MA operations for the total Army are under development. Automated systems include the Global Combat Support System (GCSS), Force XXI Battle Command Brigade and Below (FBCB2), Movement Tracking System (MTS), Battle Command Sustainment Support System (BCS3), the Defense Casualty Information Processing System (DCIPS), and other related AISs at all force levels. These automated systems will provide the automated means to fulfill the MA requirements given in this manual. This manual is a doctrinal guide to MA operations within an area of operations (AO) within a Joint TO. As such, it gives the mission and organization of the MA force structure. The manual also explains the role of the various levels of command in the TO. Command relationships between the different brigade combat teams...
