Java For Testers: Learn Java Fundamentals Fast (Paperback)

By Alan Richardson

Compendium Developments, United Kingdom, 2015. Paperback. Condition: New. Language: English. Brand new Book. This book is for people who want to learn Java. Particularly people on a team that want to learn Java, but who aren't going to be coding the main Java application i.e. Testers, Managers, Business Analysts, Front End Developers, Designers, etc.If you already know Java then this book may not be for you.This book is aimed at beginners. Designed to help the reader get started fast, the book is easy to follow, and has examples related to testing.You can find the companion web site for the book at http: The book covers 'just enough' to get people writing tests and abstraction layers. For example, the book cover the basics of Inheritance, but doesn't really cover Interfaces in detail. We explain the concept of Interfaces, because we need to know it to understand Collections, but not how to write them.Why? Because the book covers enough to get you started, and working. But not overload the reader. Once you are on your way, and have gained some experience. You should have the basic knowledge to understand the additional concepts.Why 'for testers'?Java Developers coding production applications in Java need to...
