Reviews

It is one of the best books. Indeed, it really is a play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Sofia Yundt)

MATERNITY AND WOMEN'S HEALTH CARE (PAPERBACK)**DOWNLOAD**

Elsevier - Health Sciences Division, United States, 2015. Paperback. Condition: New. 11th Revised edition. Language: English. Brand new Book. With comprehensive coverage of maternal, newborn, and women's health nursing, *Maternity & Women's Health Care*, 10th Edition provides evidence-based coverage of everything you need to know about caring for women of childbearing age. It's the #1 maternity book in the market -- and now respected authors Dr. Deitra Leonard Lowdermilk, Dr. Shannon E. Perry, Kitty Cashion, and Kathryn R. Alden have improved readability and provided a more focused approach! Not only does this text emphasize childbearing issues and concerns, including care of the newborn, it addresses wellness promotion and management of common women's health problems. In describing the continuum of care, it integrates the importance of understanding family, culture, and community-based care. New to this edition is the most current information on care of the late preterm infant and the 2008 updated fetal monitoring standards from the National Institute of Child Health and Human Development. Expert authors of the market-leading maternity nursing textbook deliver the most accurate, up-to-date content. Clinical reasoning case studies provide you with opportunities to test and develop your analytical skills and to apply knowledge in various community Activity boxes focus on maternal and newborn activities that can be pursued in local community settings and illustrate nursing care in a variety of settings. Cultural Considerations stress the importance of considering the beliefs and health practices of patients from various cultures when providing care. Emergency boxes provide information about various emergency situations and offer a quick reference in critical situations. Family-Centered Care boxes highlight the needs and concerns of families that you should consider to provide family-centered care. Medication guides provide an important reference of drugs and their interactions. Nursing care plans include rationales for interventions and provide you with an overview of, and specific guidelines...
