Createspace Independent Publishing Platform, United States, 2018. Paperback. Condition: New. Language: English. Brand new Book. Modern culture would have you believe that everyone has a soul mate; that romance is the most important part of a successful marriage; that your spouse is there to help you realize your potential; that marriage does not mean forever, but merely for now; and that starting over after a divorce is the best solution to seemingly intractable marriage issues. Social science research confirms that marriage is an important social good that brings a wide range of positive outcomes for adults and children alike. Read more about these benefits of marriage: -On average, married people are better off financially. -Marriage is associated with better health, sex and safety for men and women. -Children do better when they live with their own two married parents. That marriage does not mean 'til death do us part, but merely for as long as my needs are being met; and that when serious differences arise, divorce is the best solution.
